Cold caller script

Hello (customer name),

Yes, (customer name), my name is (Agent Name), I know this call is out of the blue but I am calling about a property I believe you own at (Address on file)

Are you the owner of (address)?

We are calling because we are real estate investors and we just wanted to see if you would consider an offer on your property?

1st- (Customer name), just so I'm setting the right expectation here, what we have to offer is Time and Convenience, we pay cash, we close on your time table & we take the property in as is condition. With the time and convenience factor, we do buy at a discounted rate.

2nd-(Customer name) If at any point you feel like we're not a good fit I just want you to know it's okay to say no, and I'll do the same. But to get started I need to ask you some basic questions before making an offer. Where does the property stand right now, is it vacant, is it a rental property, or do you live there?

3rd- Ok, and what condition is the property in right now, is it a fixer upper, or is it completely updated, have you done any major remodeling to the house in the last 5 years?"

(Examples Kitchen, Bath, Roof, Floors)

Ok Great! Well...(Customer name) we purchase properties for cash...there are no real estate commissions... and the best part is, you don't have to put another cent into the property because we make the purchase in AS-IS condition and typically we can close in 15 to 30 days, or on your timeframe. How does that sound?

Based on the condition of the property, what would you consider is a fair offer for the home? (Answer) – So besides getting the right price, what's another reason you're considering selling?

It looks like we have everything that we need, we really appreciate your time and patience, what I will do now is get this information to my partners and they will be giving you a call back to give you an offer.
